Important Developments You Need To Know About

Dear Client(s),

We haven't written you a letter like this for a long time, and there's a good reason why.

We've only recently realized, after over 30 years of experience in handling thousands of clients' estates when they've become disabled or passed, that...

Many of Our Clients' Estate Plans May Be Defective!

It's not because they were drafted incorrectly. It's because the world has dramatically changed and we've found that several key issues have not been adequately addressed by our clients, which may end up sabotaging your estate plan!

You need to know:

- The most up to date strategies (plus get an action checklist) to help *protect you from elder abuse* when your ability to handle your own affairs diminishes in your later years.
- Why the *devastating cost of long-term nursing care* has become a greater threat to you, your estate and loved ones than conservatorship, probate and estate taxes combined - - and how you can *utilize new ways to help pay* for in-home care, assisted living and nursing home care!
- Why you may have chosen the *wrong successor trustee* for your Living Trust, who will handle your financial matters when you're disabled or gone - - and what other options may make better sense *to protect you and preserve your family harmony!*

(please turn to the other side)

Come and join us for:
